

Nassau Bay Fact Sheet

The City of Nassau Bay is a unique community whose history is deeply rooted in the American space program. See the [Statistics and Facts](#) below.

- Nassau Bay was built to provide housing and commercial building space in support of the Manned Spacecraft Center, now known as the Lyndon B. Johnson Space Center. (See [history pages](#)).
- Many astronauts who have worked and trained at the space center have made Nassau Bay their home and raised their families here.
- Aerospace administrators, engineers, and other support personnel have resided in Nassau Bay for the last thirty-five years.

Our Community

Nassau Bay is a small suburban community of nearly two square miles. Our permanent resident population is nearly 4,200. During business hours our population is significantly greater. Additionally, the Nassau Bay area receives an average of 2,700 tourist visitors each day.

- About two-thirds of Nassau Bay is residential while the remainder is commercial.
- Our commercial district includes several buildings four to fourteen stories in height.
- We have two marinas with hundreds of pleasure boats docked along our waterfront.
- We have three hotels with a combined total of 419 rooms.
- The Johnson Space Center is located adjacent to Nassau Bay and is in the jurisdictional boundaries of the City of Houston.
